

Come put your military training and experience to good use. Alliant Technologies is a leading Network Infrastructure and Cloud based Managed Services Company in the metropolitan New York/New Jersey area. In our new state of the art Network Operations Center, we offer our employees the opportunity to work with a revolutionary suite of services that make infrastructure technology simple & easy to consume for our clients. We have built and are continually improving our automated ITSM platform, which provides our customers with a self-service platform that gives them unprecedented levels of control choices and co-management. Our services are primarily cloud based, and include proactive configuration management, network monitoring and reporting, cloud based backup, repair, and Tier 1, 2 and 3 support for network, datacenter and UC services. Alliant is dedicated to developing long-term strategic technical business solutions for mid- sized & enterprise companies.

We currently have openings for Technical Project Managers. We are looking for process oriented people with supervisory experience who are able to follow established procedures and best practices and insure the team's compliance. This is a fast-paced, challenging technical position where no two days are alike. You must have at least three year's technical experience managing IT projects including Cisco networking, Cisco VoIP, Microsoft Active Directory, Microsoft Exchange, VMware or NetApp. You will be responsible for developing project plans, performing ROI analyses, insuring accurate deliverable dates, managing projects to deliverable dates, managing costs, assisting with personnel requirements scheduling, overseeing project planning and status meetings, and communicating with clients on project statuses. You may be assigned to multiple projects at one time.

We offer a very attractive compensation and benefits package, including medical, dental, disability and life insurance, flexible spending and a 401(k) plan. We are an EEO employer. We are not a recruiter or contract placement firm.

Requirements

- At least four years technical project management experience managing projects such as the implementation of Cisco networks, Cisco VoIP installations, Microsoft servers, Active Directory, Exchange, VMWare or NetApp.
- Experience creating project plans using MS Project, performing cost analyses, ROI analyses, etc.
- A recent PMP certification would be highly valued.
- Recent certifications such as CCNA or CCNP would be highly valued.
- Experience developing and adhering to processes and procedures and insuring compliance in others.
- Strong written and verbal communication skills.
- College degree preferred.
- Superior time management skills working in a fast-paced environment.
- Ability to work well independently under pressure.
- A bright, energetic & positive outlook.
- A great sense of humor.
- Excellent discipline with good organization & planning skills.
- Someone who wants to be a member of a team made up of talented, passionate engineers, and who enjoys helping build upon each others' success

Salary range: \$81k to \$100K
